MAULANA ABUL KALAM AZAD UNIVERSITY OF TECHNOLOGY, WEST BENGAL

Paper Code : APM-604A

KNITTING & KNITWEAR TECHNOLOGY

Time Allotted: 3 Hours | *Full Marks*: 70

The figures in the margin indicate full marks.
Candidates are required to give their answers in their own words as far as practicable.

Group – A

(Multiple Choice Type Questions)

1×10=10

1. Choose the correct alternatives form following:

(i) Gauge of circular Knitting m/c is defined by
(a) No. of needles in 1 diametric inch.
(b) No. of needles in 1 circumferential inch.
(c) No. of needles in 2 diametric inches.
(d) No. of needles in 2 circumferential inches.

(ii) Ponte-di-Roma is a derivatives of
(a) Single Jersey
(b) Rib
(c) Inter Lock
(d) None of these

(iii) Sinker are used in
(a) Single Jersey m/c
(b) Rib machine
(c) Flat doubled m/c
(d) Interlock m/c

(iv) A row of loops produced by adjacent needles in knitting cycle is called
(a) Course
(b) Wales
(c) Gauge
(d) None of these

(v) A Tuck stitch makes the fabric
(a) Wider, Thicker & more porous
(b) Narrow, Thicker & more porous
(c) Narrow, Thinner & less porous
(d) Narrow, Thicker & less porous

(vi) Relaxed 1X1 Rib with equivalent to single Jersey:

(a) Twice Thicker & Same wider
(b) Same Thicker & Same wider
(c) Same Thicker & half wider
(d) Twice Thicker & half wider

(vii) A Rigid Pressure bar is essential with

(a) Latch needle
(b) Bearded needle
(c) Compound needle
(d) None of these

(viii) When a stitch failing to form because of malfunctioning needle, it is called

(a) Dropped stitches
(b) Fine stitches
(c) Miss stitches
(d) Loops

(ix) A Knit Jersey with loops on one side is

(a) Single Jersey
(b) Double Jersey
(c) French Jersey
(d) Fleece

(x) Double end needle is essential in Production of Knitted structure of

(a) Rib
(b) Interlock
(c) Purl
(d) Socks

Group – B

(Short Answer Type Questions.)

Answer *any three* questions. 5×3=15

2. Write short notes on:
   (a) Barre
   (b) Cardigon
3. Write short note on— Puckering.
4. Describe the sewing defects in knitted garments with remedies
5. Give a comparison between 'Rib & purl'.
6. Write short notes on:
   (a) Faux Far
   (b) Full Cardigon

Group – C

(Long Answer Type Questions)

Answer *any three* questions. 15×3=45

7. What do you understand by rib gaiting and interlock getting? How double Jersey m/c are different from single Jersey m/c? How guide bar play important role in warp knitting in production of different designs. Describe with net sketches the knitting cycle of batch needle for production of single Jersey fabric. 3+2+2+8=15

8. (a) 4–Track circular weft knitting m/c are more versatile than 2-track one in terms of production of designed fabrics.—Justify. 4

   (b) Why sinker is used in knitting? Write the working function of differents parts of sinker with diagram. Describe the phases of operation of sinker in weft knitting. 2+4+5=11

9. (a) Elaborate the reasons for the growth of knitting industry in India. 5

   (b) Why latch needle is called self-acting needle? 3

   (c) Define verge & Trick with suitable diagram. 3

   (d) Make a detail classification of weft knitting machines and structures. 4

10. (a) Explain the following Terms

    Course, Wales, Stitch density, Face loop, Back loop, Laddering, Loop shape factor, Robbing back. 12

    (b) Name the various techniques of producing pattern in knitted fabrics. 3

11. (a) What is Tightness factor? How its influence by yarn count and loop length? 3

    (b) Give a comparison between tricot and Raschel Warp Knitting. 6

    (c) Discuss on the production of fully fashioned garment in Knitting. 6
